<hr/>	
Total amount of receipts,	\$3296 22
Amount expended as per order of school Board,	3213 17
<hr/>	
Balance in favor of district,	\$83 05

ISAAC WALKER, Treasurer.

I hereby certify that I have examined the account of the treasurer of the Pembroke school district for the year ending March, 1893, and find the same duly vouched and correctly cast and a balance in favor of the district in hands of the treasurer of eighty-three dollars and five cents (\$83. 05.)

MARTIN H. COCHRAN, Auditor.

The number of children between the ages of five and fifteen as returned by the Selectmen is 273 boys and 246 girls, a total of 519, the number last year being 542.

As will be seen by the report of the Treasurer, the whole amount expended for support of schools in town the past year is, \$3213. 17. The number of children attending school is 257 which makes the cost per scholar \$12. 50 for 32 weeks schooling, including books and supplies. We believe this will be a satisfactory showing to the citizens and taxpayers of Pembroke. But the expense per capita might be still further reduced if we could secure the attendance of all the children in town that ought to attend school. Your attention has been called to this matter in previous reports and we again ask you as parents and guardians, to co-operate with your committee compelling boys and girls to attend school regularly. Let interested citizens, especially in Suncook village, bear this in mind and report known cases of truancy to the school board.

So far as we are able to judge, our schools compare favorably with the neighboring towns.

It is our purpose however to raise them to a higher degree, of excellence by employing the best teachers obtainable, at good wages and a careful supervision of the condition and needs of each school.

The condition of the school buildings as a whole is better than a year ago.

The amount appropriated for repairs, \$250 00, at the last annual meeting was insufficient owing to the large outlay on the Suncook schoolhouse, occasioned by the lightning, necessitating reshingling the roof which otherwise would have been postponed for a year or two. The deficit, being less than 5 per cent was taken from the school fund so that no debt was incurred.

The Borough and Hill schoolhouses need further repairs and improvements. Aside from this, the expense in this direction will not be unusual and an appropriation the same as last year in our opinion will be sufficient.

An examination of the condition and quantity of books and supplies on hand at the present time shows that we shall need to make larger purchases the coming year. It will therefore be necessary to ask for a larger appropriation.

The success of the schools for the next year depends not alone upon the action of the school board but the united action and efforts of school board and teachers, with scholars and parents and especially would we urge upon the latter the necessity of supplementing the efforts of the teacher in maintaining discipline by a good, wholesome home influence.

The thanks of the board are due to all who have shown an interest in our schools by frequent visits and kindly suggestions to those who have to do with the educational interests of the town.

Respectfully Submitted,

ISAAC WALKER.	}	Board of Education.
